

I would NOT like to see any changes to the No Call List in Wisconsin. I signed up because I do not want anyone calling me that I have not personally given my phone number to. I hated the endless phone calls from telemarketers every evening and weekend. I hated it so much that I would turn my phone off and check my messages later. This made me a prisoner in my own home!!! I resorted to caller ID. . . An expense I had to pay so that I would not have to take telemarketer calls. I enjoy having dinner with my family and relaxing at home without the phone ringing off the wall. I enjoy the extra dollars in my pocket because I was able to discontinue the caller ID service. PLEASE do not cave in to the bankers or anyone else. We know what is best for us. . . and that is the strong NO CALL list here in Wisconsin. NO CALL means NO CALL!!!!!!
